[linkedin.com/in/jonscheiber](https://www.linkedin.com/in/jonscheiber) | github.com/scheiber | scheiber.dev

Technical Skills

JavaScript, Python, HTML, CSS, React, Express, PostgreSQL, Node.js, Git, Figma, Linux, macOS

Education

Queensborough Community College - Bayside, NY August 2025 - Present
A.A.S. in Internet and Information Technology
Anticipated Completion: January 2027
Pursuit - Long Island City, NY December 2021 - December 2022
Full-Stack Web Development Fellowship

Experience

Full-Stack Web Development Fellow - Pursuit December 2021 - December 2022

- 12-month Google-funded software engineering fellowship with a 9% acceptance rate whose graduates have been hired as developers at leading companies such as Pinterest, JP Morgan, and Spotify.
- Project-based curriculum provided hands-on experience with JavaScript, HTML, CSS, Node, Express, React/Redux, PostgreSQL, APIs, Git, data structures, algorithms, sprints, Agile, code reviews, and pair programming.

Customer Care Representative - Time Warner Cable July 2014 - September 2015

- Responded to customer inquiries regarding billing, service issues, troubleshooting, rate changes, and television programming.
- Resolved customer concerns by troubleshooting with established procedures.
- Collaborated with a team to identify issues that impede quality customer care.
- Met and exceeded strict goals in regard to call center metrics, including productivity, customer satisfaction, first-call resolution, handling time, and quality assurance reviews.

Projects

Worth a Shot - React, Express, PostgreSQL, JavaScript, Yelp API, HTML, CSS December 2022
worthashot.scheiber.dev | github.com/scheiber/worthashot

- Worked with a team of two other developers to create and deploy a web app that finds nightlife establishments and recommends drinks with a React-based frontend, an Express-based backend, a PostgreSQL database, and integration with the Yelp Fusion API.
- Responsible for graphic and layout elements, branding, documentation, implementing accessibility features, optimizing for mobile, and enhancing user experience.

SauceSource - React, Express, PostgreSQL, JavaScript, HTML, CSS September 2022
saucesource.scheiber.dev | github.com/scheiber/saucesource

- Developed a hot sauce reference catalog app with a React-based frontend, an Express-based backend, and a PostgreSQL database.
- Responsible for project management, creating graphic and layout elements, branding, front-end and back-end, documentation, optimizing user experience, and deployment.

Certifications

Google IT Support Professional Certificate July 2025
CompTIA A+ ce Certified IT Professional February 2016
